SHAPING TOMORROW'S MINDS

How Does AI See Pictures?

AI looks at pictures kind of like you do, but in a special way! It breaks down images into patterns, shapes, and colors. Then it learns which patterns belong to which things - like what makes a dog look like a dog, or a cat look like a cat.

Let's Sort!

LearnSpace
SHAPING TOMORROW'S MINDS

Sorting Activity

1. You'll get pictures of different animals
2. Sort them into these groups:
3. Dogs
   Cats
   Birds
   Rabbits
4. Think about what features help you tell them apart!

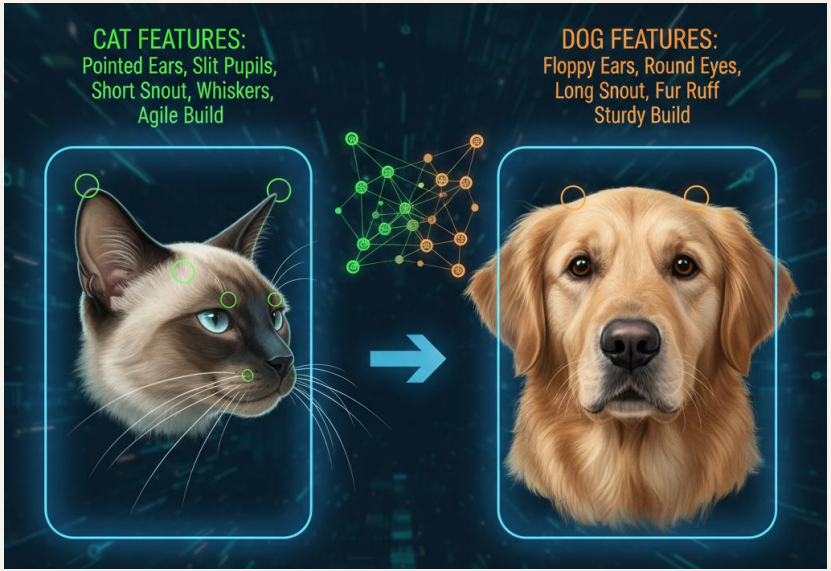
SHAPING TOMORROW'S MINDS



How to Train Your AI

1. 📷 Take pictures or upload images
2. 🏷️ Sort them into different groups
3. 🧠 Train your AI by clicking the "Train Model" button
4. ✏️ Test it with new images and watch it recognize them!
