

# AI Through Fun

## Session 3 – AI Learns from Data

# What Does AI Eat?

Just like you need food to grow strong, AI needs data (pictures, sounds, words) to get smart!

**What food makes you strong? What food do you think AI eats?**

# Let's Feed AI and See What It Makes!

"A robot eating pizza with a cat at the park"

This is like feeding AI data. Let's see how it imagines our funny idea!

# Make Your Own Silly AI Pictures

## Activity: Choose Fun Prompts Together!

 "A dinosaur eating ice cream"

"A mermaid riding a bicycle"

 "A dog flying a spaceship"

See how AI mixes the things we tell it, just like mixing colors in art!

# How Do We Use AI Images?

Option b

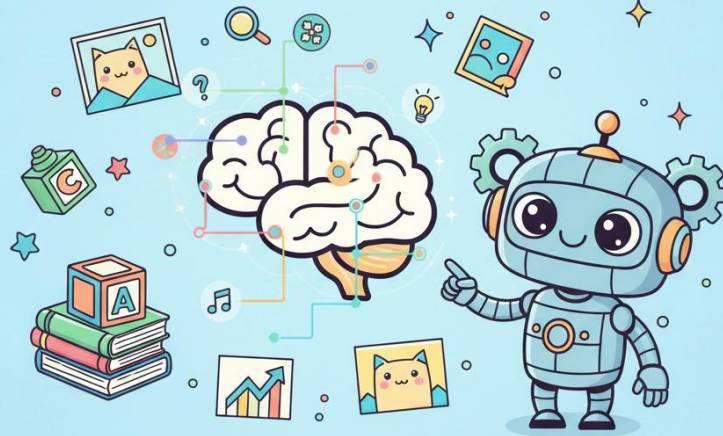

AI helps artists, designers, and even scientists imagine new things.

**If you had an AI art machine at home, what picture would you make first?**

THE BRITISH  
INTERNATIONAL  
SCHOOL, CAIRO

# HOW MACHINES LEARN

**THE LEARNING ADVENTURE CONTINUES!**

★  
**THANK YOU FOR EXPLORING!**
