

# AI Through Fun

Session 4 – AI Creates| You are a Movie Director

# How AI Learned Before

Remember how AI learned from lots of examples?

It looked at pictures, videos, and patterns — like a student practicing.

Just like you learn by reading books and solving problems, AI learns by studying many examples!

# Now AI Starts Creating!

After learning, AI can imagine new things —  
like drawing, writing, or even making movies!

Camera

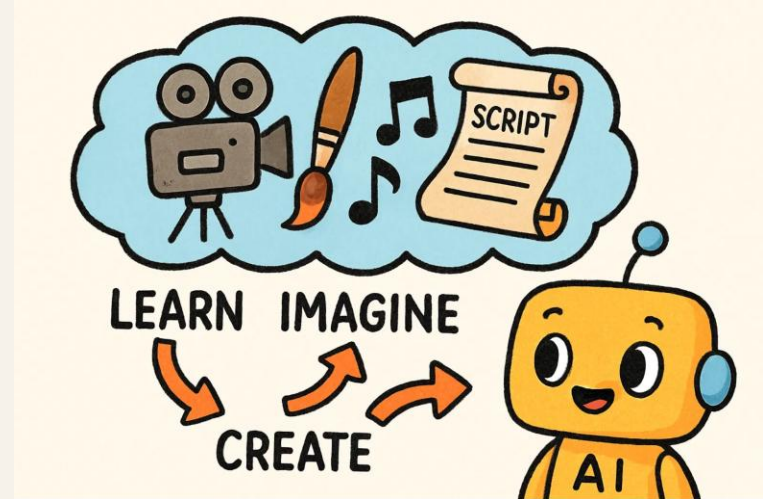

Paintbrush

Music

Script

# AI in Movies!

In movies, AI helps with:

-  Creating scenes
-  Making characters
-  Adding music
-  Generating ideas fast!

# Let's Be AI Directors!

Today, YOU will be the movie director!

You'll write a short movie idea, and AI will make the scene for you!

## Questions to Ask:

-  What's your movie about?
-  Who are your characters?
-  What happens first, then next?
